

From the Nature for the Nature

Malaysian Rubber Board (MRB) is the largest single-commodity research organisation in the world which conducts R&D in all aspects of natural rubber (NR) production, processing and product development. Our mission is to enhance the competitiveness and viability of the Malaysian rubber industries in the global environment through focused research and development, effective transfer of technology and quality support services.

Green Material For Rubber Products

- Green or environmentally-friendly tyres and tyre product
- Thermoplastic vulcanizates (heat and oil resistance for automotive application)
- Industrial weather-strips
- Mould cleaning compound
- Oil and fat resistance in food industry
- Shoe sole
- Gasket
- Sound anti vibration for speakers
- Milking device for dairy industry Adhesive

Advance Rubber for Engineering and Eco-efficient Applications

- Hydromounts, seals, joint rings, large shock absorbers, suspension bushes, helicopter rotor bearings
- Underwater applications, large shock absorbers
- Anti-vibration mountings, surge fenders
- Medical, pharmaceutical and food applications

MALAYSIAN RUBBER BOARD

Address: Bangunan Getah Asli, 148 Jalan Ampang 50450
Kuala Lumpur, Malaysia
